### GRANT'S DEFENSE.

#### NEW YORK'S MAYOR PRESENTS HIS SIDE.

He Confines Himself to Denials of the Charges of Rank Corruption.

McCann Cross-Examined at Length by Grant's Attorney—His Former Statements Unshaken.

A Witness for the Mayor Swears He Would Not Believe McCann Under Oath—Family Affairs Well Aired During the Examination—The Criminal Calendar.

NEW YORK, May 3.—The senate committee on cities, of which Mr. Fessenden is chairman, sat again in the city today to hear further developments concerning the workings of the city department. As it was known that Mayor Grant would be a witness to exonerate himself from the charges made against him by Patrick McCann, the committee room was filled to the doors. Among those present were Councilmen Dean, Fawcett, McCann, who is said to have assisted Grant in political crises; ex-Congressman J. Adams, John B. Townsend and several aldermen and politicians. Mayor Grant was present with W. Bourke Cochran, his counsel, Chairman Fessenden and the other members of the committee were on hand early. Mr. Cochran opened the ball by saying that he had made no statement as published, accusing the committee of suborning the perjured testimony of Mr. McCann; he had, however, said the suborning of such testimony should be punished.

Mr. McCann was again put on the stand and cross-examined by Mr. Cochran. He said Mr. Cochran owed him \$3000, incurred for supplying groceries to Mr. Crocker's family. The debt had been growing for seven or eight years. The witness then said Mr. Cochran had introduced him to Mr. Crocker at his store and introduced him as a man to whom he could trust everything he said. He took Crocker and Adams up stairs and left them there. In half an hour or less Crocker came down with the sacred still in his hand and said he would not trust Adams. When Adams came down, he hurried out without saying a word. Crocker had said to him that there were two aldermen whom he wanted to reach and Tom Adams knew them. Mr. Crocker had subsequently said that he had seen these two aldermen and he understood that everything was satisfactory.

"I knew," he said, "somebody had been seen."

"Who were these aldermen?" "Person and Wagoner," (Sensation).

The cross examination ended at this point and it was generally considered that McCann came out of the ordeal unimpaired and that his testimony had not been shaken up to this point. The witness said he had been on the best of terms with Crocker, his brother-in-law, until Mayor Grant came between them. Mr. Irving said that John H. Grant had told him that the \$180,000 had been returned to those who contributed it on the New Year's following. The witness said he could make some charges which he did not care to put forward voluntarily at present, and that the less these gentlemen have to say, the better for themselves. When pressed by Mr. Irving he admitted having conversation with Grant about his connection with the Broadway railroad bribery in 1884.

Mayor Grant here arose and said he wanted Mr. McCann to withhold nothing he knew concerning him. Witness then told of a day when he (Mr. Grant) and Alderman Mooney had seen to a police office together and Mr. Grant referring to the Broadway railroad bribery and of his conversation with Mr. Crocker. "If it had not been for his advice I had been in that deal with the other fellows," meaning, as witness explained, the aldermen who had accepted bribes. Mr. Grant he said, subsequently repeated the same thing in the presence of Mrs. McCann and Mrs. Crocker. Mrs. Crocker and witness had a conversation in January or February, 1885, about the \$180,000 Mr. Crocker brought to his store about a month before. She told him that Mr. Crocker had brought home a large sum of money about that time and she sat up at night to guard it until he arrived at the house. Witness had heard nothing to show that it was the same money.

Mr. McCann's examination being concluded, Mr. Cochran called as witness James R. Dunham, of Dunham, Buckley & Co., dry goods merchants, who testified that he would not believe McCann under oath if he had any motive to testify falsely. Recess was then taken. After recess Mr. Cochran called Mayor Grant to the witness chair. To Mr. Cochran's question the witness testified positively the charges testified to against him by Mr. McCann. Questioned as to his relations to Richard Crocker and his family, Mayor Grant said these relations had always been most friendly. He was godfather to Mr. Crocker's child, Fessie. When he assumed that responsibility, as he had no nearer relation than a cousin, he had determined to make substantial provision for her. Following out the idea he had given her about \$2000 at different times. The presents were given without any understanding or agreement or in consideration of his election as sheriff.

**MURDERED HIS WIFE.** WATERBURY, Conn., May 3.—Arthur Jackson, colored, of Bristol, while drunk, last night about 2 o'clock, went to the Bristol house, where his wife is a waitress, and demanded that she go home. She got up and dressed to save a scene and went home. First he made her hold a light while he killed his dog with an axe; then with a razor he began operations on the woman. He cut her throat so horribly she can not live, and also cut off several of her fingers. He was arrested.

**A WARRANT AGAINST PFEIFFER.** PHILADELPHIA, Pa., May 3.—On an affidavit sworn to by Morris A. Kline, a beer-bottler, a warrant was today issued against Lewis E. Pfeiffer, president of the bank of America, on the charge of embezzlement. This is the first criminal phase of the complication growing out of the suspension of that institution. The charge is made that Pfeiffer accepted money from a depositor after he knew the bank was insolvent.

### NO ROBBERY OCCURRED.

SAN ANTONIO, Tex., May 3.—Superintendent Murray, of this city, who has charge of the Wells-Fargo run on the Southern Pacific between San Antonio and New Orleans, denies that any robbery took place at Eagle Lake or at any other place on the line as reported.

### WOMAN CONVICTED OF MURDER.

### TWO WOMEN MURDERED.

BALTIMORE, Md., May 3.—Mrs. Sarah Blaney, a widow aged 77 years, and her daughter Carolina, residing at 1035 Greenmount avenue, were found murdered in their beds this morning. Their skulls had been crushed with a blunt instrument.

**IF YOUR LIVER REMINDS YOU** Of its existence by dull pains or sharp twinges in the right side, or beneath the right shoulder-blade, accept the reminder as a warning, and regulate the organ without loss of time, by the use of Hostetter's Stomach Bitters. The above symptoms are usually accompanied by yellowing of the skin, constipation, full tongue, disorder of the stomach, sick head, ache and morning nausea. But a remedy is promptly instituted by the Bitters, the best possible substitute for calomel, blue pill and other superstitious and hurtful drugs erroneously designated as remedies for biliousness. Appetite and digestion are restored, and the bowels resume activity, when an impetus is given to the functions of health by this sterling antitoxin medicine, which also has the effect of purifying and purifying the circulation, and fortifying the system against malarial infection in air and water. It is also highly beneficial for rheumatism, kidney and bladder troubles.

### WASHINGTON RIVERS OVERFLOWING.

SPOKANE FALLS, Wash., May 3.—The melting of snows in the mountains has caused a rapid rise in Conrailine lake, Spokane river and tributaries. Many families have been compelled to move out of the low lands. In this city there is not a drop of water in the mains and no protection against fire, the high water having washed away the mains, which are laid at the bottom of the river. A large force of extra policemen were on duty all night. The mayor has notified property owners, advising them to employ watchmen to guard their property.

### VILLARD'S SCHEME ALMOST REALIZED.

CHICAGO, Ill., May 3.—The Northern Pacific railway company has completed a deal here by which it will take possession of the properties of the Chicago & Great Western railroad company. The Chicago & Great Western is simply a terminal company with lines inside the city limits and with valuable terminal facilities at Harrison street and Fifth avenue in the business part of the city. It is over this company's tracks that the Wisconsin Central secured entrance to the city and the Northern Pacific will come in over the Wisconsin Central line. The Calumet Terminal company has docks on the Lake Shore at Calumet just south of this city and a belt line connecting them with the Great Western tracks. It is said that circumstances point to a close alliance between this system and the Baltimore & Ohio railroad, thus realizing Mr. Villard's idea of a real trans-continental route.

#### OUTCOME OF THE MAY DAY CELEBRATION.

The Employers of Germany Uniting Against the Labor Organizations.

A Determination to Stop the Alarming Advance of the Power of Socialists.

A Story Published that Bismarck's Retirement was the Result of a Shrewd Intrigue—Accused of the Morphine Habit His Wounded Honor Causes Him to Resign.

(Copyrighted 1890 by the New York Associated Press.)

BERLIN, May 3.—The first prominent result of the May day agitation has been a formidable movement among manufacturers, merchants, mine owners and others employing large numbers of hands to promote the formation of a German union against strikes. A meeting of capitalists, manufacturers, and others, which was attended by representatives of several Berlin industries, it was decided to organize an employers' protective union. If this plan is carried out, the league will be formed covering Germany with a net work of employers' associations. Some of the newspapers similarly draw conclusions that the employers, if men in the union, can defeat the utmost efforts of the malcontented workmen. The failure of the demonstration is held to be a set-off to the socialist success. But both employers and commentators of the press overlook the fact that the socialist leaders of the workmen opposed any form of demonstration that might lead to a collision with the authorities or the employers. The socialist leaders do not pill the celebration a failure. In a conversation upon the subject, Herr Liebknecht said the public expectation of demonstrations measuring peace arose from erroneous reports, which were widely circulated, as to how the workmen intended to observe the day. It was a pacific and orderly celebration, in accordance with the plans of the socialists.

The Hamburger Nachrichten gives a new and startling phase to the secret history of Prince Bismarck's retirement by stating as a positive fact that the emperor's mind had been prejudiced by enemies who influenced him to believe that the prince took such large doses of morphine that he almost lost the power of connected thought. The reports reached the emperor in such creditable form that he deemed it necessary to summon Dr. Schelling in order to question him regarding Bismarck's condition, although the answer received by the emperor convinced him that the reports were groundless. At the same time

interested persons busied themselves with creating in the chancellor's mind an impression that the emperor was resolved to get rid of him at any price and was taking steps to find a successor. The manipulators of the intrigue in the meantime kept assuring the emperor that Bismarck was firmly resolved to resign. The Nachrichten adds: "It will not be long before the names of the authors of this intrigue are disclosed."

The article indicates a desire on the part of Bismarck to remove close relations with the emperor. The dispatch sent by the emperor to the ex-chancellor from Strasbourg, was couched in the old terms of cordiality. Since the imperial aide-de-camp, Lehndorff, returned from his journey to Friedrichsruhe, the clouds between the emperor and Bismarck have been clearing away and all misunderstandings are being explained.

### GODDARD REMAINS.

He Will Stay with the Santa Fe for a Time at Least.

CHICAGO, Ill., May 3.—It is possible that the resignation of J. E. Goddard, third vice-president of the Atchafalaya, Topoka & Santa Fe, may be withdrawn. It certainly has not been accepted and President Menzel, who is now in the city, said today that he believed that Mr. Goddard could be prevailed upon to remain with the company. He said furthermore that he would see that Mr. Goddard received the respect due his position in future, and that he should have no cause to be dissatisfied on that score. Mr. Goddard has consented to remain, at least temporarily.

A famous Washington gambler, it is said, will soon go to preaching. He would have begun ten years ago, but he has only just found a cure for his cough. It is Dr. Bull's Cough Syrup. ### A VICTORY FOR CONNORS.

SAVANNAH, Ga., May 3.—The prize fight between James Haley, of New York, and James Connors, of Buffalo, champion light weight, tipping the scales at 135 each, for a purse of \$1,300, at the Savannah Athletic club, resulted in a victory for Connors after twenty-three rounds. Haley was the favorite in the betting. Connors proved the much better man in the ring and forced the fighting all the way through, though not in as prime condition as his opponent.

**White Cake**—White cake should be close grained and light. Two whites of six eggs beaten to a stiff froth and mixed with one and one-quarter cupful of fine sugar. Beat three-quarters of a cupful of butter-cream to a cream and stir in two cupfuls of flour until quite smooth. Stir the sugar and eggs gradually into this and flavor with lemon extract and a tablespoonful of lemon juice. Use a teaspoonful of baking powder in the flour.

### SOCIAL ETIQUETTE.

Nothing is so generally desired to be exhausted as the strength of a weary body as a bath containing an ounce of aqua ammonia to each pailful of water. It makes the flesh firm and smooth as marble, and renders the body pure and free from all odors, according to The Medical Times.

### PRESENTATION AT COURT—A Debutante's Preparations for a Drawing Room.

Miss Maudslayi in Full Mail Budget of her talk with one of the smartest women in London, who has struggled through many a drawing room.

"In raising people find that presentation at court gives them the entire to society?" I pronounced society with a large R, of course.

"It doesn't make a scrap of difference," exclaimed my informant, "though people have been known to call and leave their cards at Macfarlane's home the day after a drawing room."

It is necessary for a debutante to be prepared for a drawing room. Oh, certainly. But all the drawing roomers took the necessary department. It would be impossible for anyone to think of power prepared with the terrible tail of a court train to manage. Why you have to make six or seven curtains without turning once. The first curtain is quite annoying, the last in the least of the royalties is a mere bolt. The queen gives you her hand in a very long fashion.
